

KENNEDY QUALITY INDUSTRIAL TOOLING *Scratch Resistant/ Anti-Fog Safety Goggles*

All goggles have a wide field of vision, built-in brow and cheek protection, soft PVC frame with an anatomically shaped bridge to adapt to all faces. All lenses provide UV protection. All frames will protect against liquid droplets and/or splashes. Fitted with wide anallergic elastic headbands and a one-piece replaceable scratch resistant, anti-mist clear lenses.

Tiger
Medium energy impact protection. Smoke coloured frame with a polycarbonate lens and are lined with soft foam for user comfort and increased adherence. The lens is resistant to molten metals and hot solids (splashes of molten metals and penetration of hot solid). The frame has an indirect ventilation system and is resistant to liquids (drops and splashes) and penetration of hot solids.

Lens Type (Scratch resistant)	Frame Colour	Order Code
Polycarbonate	Smoke	-8140K

Clear framed goggles are resistant to gross particles (dust particles >5 microns) and gas and fine particles (gas vapours, splashes, smokes and dust particles <5 microns).

Scorpion
Medium energy impact protection. Clear frame with a 2mm thick polycarbonate lens. The lens and the frame is resistant to molten metals and hot solids (splashes of molten metals and penetration of hot solids).

Lion
Low energy impact protection at extreme temperatures. Clear frame with an extremely flexible acetate lens.

CE
EN166
EN170

Type	Lens (Scratch resistant)	Frame Colour	Order Code
Scorpion	Polycarbonate	Clear	-8070K
Lion	Acetate	Clear	-8080K

Anti-Gas/Flame Resistant Safety Goggles

Condor
Medium energy impact protection. Suitable for foundry work. The frame, lens and elastic strap are manufactured from flame resistant material. Fitted with a flexible nose bridge to adapt to all faces. Large peripheral viewing area. One piece 2mm anti-mist, scratch resistant, clear polycarbonate lens with an extra wide elastic headband. Can be fitted over most prescription glasses. The frame is resistant to liquids (drops and splashes), gross particles (dust particles >5 microns), gas and fine particles (gas vapours, splashes, smokes and dust particles <5 microns and molten metals and hot solids (splashes of molten metals and penetration of hot solids).

Spare Lens		-8120K

Scratch Resistant/ Anti-Fog Safety Goggles

Cobra
Low energy impact protection at extreme temperatures. UV protection against electrical arc discharges caused by a short circuit. Ultra light nylon frame with length adjustment the temples and front angle adjustment for low friction, lined with soft foam for user comfort and increased adherence. One-piece, scratch resistant, anti-mist clear polycarbonate lens. As well as the arms having hang cord attachment points, a black universal hang cord is included with the goggles. Resistant to liquids (drops and splashes) and gross particles (dust particles >5 microns).
